Purpose

These additional funds will continue to provide a web-based system that is integrated with existing Michigan Department of Education, Office of Special Education and Early Intervention Services' (MDE/OSE-EIS) data bases regarding student and related compliance data. This project will provide local districts a data manager system to track required student data and special education programs and services; maintain compliance data for mandatory state and federal monitoring; and provide basic reporting capabilities to local school districts. Additionally, the project will provide district compliance data summaries.

This project supports compliance with federal information and management requirements for performance standards and system outcomes under the IDEA (2004). Without this system, the Department is at risk of non-compliance.

Discussions with the Department of Information Technology (DIT) related to a migration plan for a successful transition of this system to the DIT is ongoing.
